Introduction_

In the midst of the coronavirus pandemic, many companies are implementing voluntary, or mandatory 'work-from-home' policies. That means that lots of us are dealing with an unusual challenge: working from home for the first time, full time.

If you're used to travelling to work each day, the separation between work and home is physical and it may help to try to replicate that as much as possible at home with a designated workspace at home. The workspace doesn't have to be a separate room, but it should feel separate from the rest of your home. Find a comfortable chair you are happy to sit in for eight hours a day, a dedicated desk makes the transition from home to work much easier and ensures that you are working at the right height, in the correct position and will feel comfortable, relaxed and in control. While the ready access to power and charging modules at the desk top makes working with modern technology so much easier.

Verco have been manufacturing furniture for over 100 years and are based in High Wycombe, in the heart of the Chiltern Hills. We understand how people work and what you need to make your working-from-home life less stressful and we have curated a range of furniture, seating and personal storage that we think may help make your new workspace more comfortable and better for your wellbeing. All products are supplied with our full five-year guarantee covering manufacturing faults, so you can relax and concentrate on your own well being and your work.

Desks/Worktables

Martin_

Martin's clean and simple form brings an elegance and simple style and provides a less formal and more friendly form of furniture for your office space.

Oblique Adapt_

Standing desks may be a relatively new concept in the UK, but have been popular in Europe for many years, particularly in Scandinavia. Advocates of the standing desk are often passionate about the impact of standing for periods through the day, claiming an increase in personal energy and productivity. Height adjustable furniture can provide substantial individual benefits to each user, including helping to support a healthier, happier and more stimulating work environment.

Oblique Adapt desking provides a stylish, robust and reliable height adjustable frame within the popular Oblique furniture collection.

A sophisticated, smooth operating electrical mechanism provides the ultimate in affordable 'sit-stand' workstations, with a height adjustment from 650-1300mm.

Seating Introduction_

Here at Verco, we're dedicated to making the transition to working from home, easier, more comfortable and more efficient.

Not everyone has an office at home, and using a kitchen chair or a stool at the kitchen table or counter can be great when making or taking calls, but perhaps not ideal as your only seating solution for longer, more concentrated work on your laptop. So, we have curated a range of seating solutions, able to provide you with the support you need when you're working from home, just like they have been doing for years in corporate offices, but which will also suit your style and your budget.

Good design is not just about style, but how it makes you feel...

A great chair doesn't have to stand out in your home. Modern materials and clever design make it easier for great ergonomic seating to sit comfortably in your home surroundings. A clever use of fabrics, colour and texture can enhance, rather than detract from your design style.

Don't worry, we've got your back....

All our seating is simple to set up, effortless to adjust, and wonderful in use. Fully compliant with the British standards required for use in offices and upholstered in Camira Blazer, Aquarius or Synergy fabric, we ensure your chair also fully complies with the Fire Safety legal requirements for Domestic furniture.

Verco has a wealth of experience and knowledge available to provide you with healthy, comfortable and durable ergonomic solutions for your continued wellbeing in the home workplace.

Flow_

Standard product specification:

Base	Black (white) nylon five star base with black 60mm diam castors
Gas lift	Black, powder coated steel barrel

Upholstery	Camira Blazer, or equivalent

	code	description
	Q CAR 1	medium back task chair
	AA	adjustable arms
	MT	polished metal base

General Information

Environmental

Improving our environmental performance is a belief that we have held since our inception in 1912 and as one of the UK's leading office furniture manufacturers we are committed to protecting the environment. We believe the time taken at the design stage of any new product can have an immediate and fundamental effect on that product's environmental impact. From the careful selection of materials to maximise the recycled content and to minimise both the energy and CO₂ footprints, to the 'end of life' recyclability of the component parts, particular consideration has been given to the environmental impact at every stage, from the design concept through to final production.

Verco's Environmental Policy – in accordance with BS EN ISO 14001 – seeks to identify and minimise the impact of the company's operations on the environment, whilst maintaining sensitivity to the full range of customer expectations. Certification requires the development, approval and implementation of a wide ranging policy relating to the environmental impact of manufacturing processes and product design.

Guarantee

All products are manufactured under the stringent BS EN ISO 9001:2015 quality assurance standard and the environmental management system BS EN ISO 14001:2015. All products are inspected before despatch. Verco undertake to repair or replace any structural part which proves to be faulty, when used under normal office conditions, provided it is returned to our works, carriage paid, within five years of manufacture.

Delivery and Installation charges

Verco are able to provide delivery to your premises free of charge.

Alternatively we can arrange for delivery and installation at your customers' premises, within mainland UK. This would be carried out by a third party and is subject to receiving full details of the client, in order that the necessary arrangements can be made. This would be a chargeable service, see below. Please note that the delivery and/or installation would take place on a standard delivery route, at a time arranged by our installation team and agreed by your customer.

Area

All areas in mainland UK, excepting below
Central London
South West & Wales
Scotland

Delivery and installation

£85
£100
£125
£125

Price is net, for the **initial** unit of furniture; e.g. Desk/chair/pedestal. Any additional units would be priced at **+£10 per unit**

Order cancellation

Orders may be cancelled or altered only with the written consent of the company. Goods made to special order cannot be cancelled. Verco reserves the right to claim all loss and expenses which may be incurred as a result of cancellation. A handling charge of 25% of the net invoice value, or £200 whichever is the higher, is made on any goods cancelled or returned with the prior consent of the company.

All prices are **nett** and are exclusive of VAT, which is charged at the appropriate rate.

All prices are valid until 31st December 2021
